SATURDAY, AUGUST 24, 1745.

Hamburg, August 24.

WE are inform'd that M. D'Allion, the French Minister at the Court of Petersbourg, is not a little chagrin'd at the Answer given him with respect to the Swedish Privateer, Capt. Dagenier. As soon as he heard that Orders were dispatch'd for apprehending him, he applied himself to the Chancellor, and desired that due Regard might be had to the French Flag. Which being deliver'd in Terms a little too elevated, the Chancellor told him dryly, That he thought the greatest Regard that could be shewn to the French Flag, was to hang him up for making use of it; since not only her Imperial Majesty of all the Russias, but the Kings of Poland, Sweden, Denmark, and Prussia, had enjoyn'd their Subjects not to accept of any Commissions from the Powers engag'd in War, which might interrupt the Commerce of the North; and that therefore this Fellow could be consider'd no otherwise than as a Pirate, if he had no Commission; and as a Rebel, if he had one; either of which was sufficient to entitle him to a Halter, the only Means to set the Merchants at rest. His Excellency retired from this Conference not a little out of Humour; but a Day or two after, having received an Express from his Court, he went to pay another Visit to the Chancellor; at which he told him, that he was very well pleased to find his Excellency so much in the Right; since it was very certain that Dagenier had no Commission to cruise in the Baltick, his most Christian Majesty having given strict Orders to his Admiralty to issue none, except the Privateers were bound to the North Sea.

MONTZ, August 21. The Day before Yesterday the Grand Marshal, Baron de Fechenbach, set out for Franckfort, attended by Four Chamberlains, and several other Officers of his Electoral Highness's Household: The rest of the Train will attend the Elector in Person, who promises to set out on this Day Sev'night at farthest. The Corps of Austrians commanded by General Baron Beren, push'd their Excursions as far as Worms; which provoked the Prince of Conti, that on the 18th he march'd a great Body of Horse and Dragoons, to cut the advanced Posts of Croats, Pandours, and other light-arm'd Troops. They executed their Commission with great Diligence and Spirit; but those Irregular Forces, when they found themselves surrounded, behav'd with such desperate Resolution, that the French were left obliged to retire, without having any great Reason boast of their Success, tho' they did carry three or four small Posts, but with a prodigious Loss of Men; that it is thought they will scarce attempt to bear up the Austrian Quarters again. His Royal Highness the Duke of Tuscany has, at the Request of our Ambassador, detached 6000 Men, who have pass'd the Rhine our Neighbourhood, in order to cover our Country, prevent the French from sacking and burning our Towns, as they have lately done. We have lately rec'd some Advices, which seem to threaten us with breaking out of a new War in the very Heart of Empire. In short, it is said that the Prussian Army, which has been so long encamped in the Duchy of Magdeburg, is in full march for the Rhine; having regard, for that Purpose, a Reinforcement of 10,000 Men, under the Command of the young Prince of Anhalt; and on their Approach, it is believed, that the Prince of Conti will repass that River, and endeavour again into the Neighbourhood of Franckfort.

WEISSEL, August 26. According to our last Advices from the Army, they are employed in strengthening and fortifying the great Causeway between Muhl'm and Antwerp, to prevent any Surprise from the Enemy, who are already in their Neighbourhood. The First Line of French Troops extends itself from St. Amand to Antwerp, having the Rupel in their Front. They are now, with great Diligence, some Works to the rear of this Line, in order to cover them from the Posts of the Allies quarter'd along the Canal, which lies near them. The Second Line of the French is posted behind the River Eike; and they give out that they wait for nothing but the King's Arrival, after some Action of Importance.

H O M E P O R T S.

WEISSEL, August 21. Wind N. W. On the 19th came the Joseph and Anne, Legros, from Southampton for Antwerp, and sailed again the next Morning. Sailed the Galley Privateer, Capt. Rouse, for Cape Breton;

the Cruizer and St. George Privateers, Captains Sutherland and Medcroft, on a Cruize; the Italian Merchant, Reed, for Maryland; the Industry, Curson, from Wells, and the Hope, Bound, from Southampton for Dublin; and all put back, except the Joseph and Anne, with a S. W. Wind. Came in from Southampton the Grey-bound Privateer, Pitton, bound on a Cruize.

P. S. All the above Vessels are just now failed, with the Wind at N. W.

DOVER, August 22. Wind N. N. E. Came in the Garrafshuro, Barend, from Stockholm for Plymouth; the Joseph and Anne, Eastable, and the Vernon, Brewster, from Sunderland; the Elizabeth, Geary, for Gibraltar; and the King George Packet, Lovel, for Falmouth, both from London. Several Vessels arrived this Morning for Flushing, who saw, and heard, a great Firing of Bombs and Cannon at Nieuport, so conclude that Place is besieged by the French.

DEAL, August 22. Wind N. by E. Sailed this Morning, without Convoy, the New Ranger, King George, Anthony, Elther, and several Coasters, Names unknown. This Moment the Charming Molly Privateer failed to the Westward. Remain his Majesty's Ships the St. George, Admiral Vernon; the Royal George, Prince George, Duke, Sandwich, Etna and Scipio Fire-ships, a Dutch Man of War, and the Ursula Armed Tender. Arrived his Majesty's Ships Dover, Ludlow Castle, and a Dutch Man of War; also the Benjamin and Anne, Sayer, from Milford for North Yarmouth.

GRAVESEND, August 22. Passed by the Lady Cate, Our-dus, from Amsterdam; the Lawrence and Mary, Rose, and the St. Peter, Swanston, from Norway; the Three Brothers, Bruce, from Boston; the Simpson, Ragg, and the Boston, Clark, from Antigua; and the Two Brothers, Scors, from Dunkirk.

ARRIVED.

At Oporto, the Expedition, Strickland, from London. At Rotterdam, the St. Clare, Addis, from Cowes.

L O N D O N.

Some Advices from the Hague mention a Declaration made by the Elector of Cologne, to M. Wasenar de Twickelo; that in case of any Attempt made to prejudice the Freedom of Election in the Dyet at Franckfort, he would immediately march 10,000 Men to the Assistance of the Grand Duke.

There are still violent Animosities among the Grandees at the Court of Munich; notwithstanding which, the Elector has sent for Field-Marshal Seckendorff back from Augsbourg, and he assists, as usual, at all the Councils held at Nymphenbourg, and is to command the Army of Observation, when formed.

According to the last Advices from the Camp of the Allies, it was resolved to expect the French in their Posts; by which the Country is so effectually covered, that the States of Brabant have made no Difficulty of granting, and raising, a Free Gift of 600,000 Florins for the Service of the Queen of Hungary.

The Expedition, Finch, from Milford for Gibraltar, is taken in the Gut of Gibraltar by an open Boat.

Yesterday a Colonel's Guard mounted at Kensington, on account of the Princesses Amelia and Caroline residing there.

The same Day the Guns were drawn out into the Park, in order to salute his Majesty on his Arrival, who is expect'd soon.

Yesterday Nelson the Soldier, belonging to the First Regiment of Foot Guards, who was shot last Wednesday Night in St. James's Park, as lately mentioned, d^dd of his Wounds at the Infirmary in Petty-France, Westminster.

We hear that Sir George Chedley, Son of the late Col. Chedley, an Ensign in the First Regiment of Foot Guards, was unfortunately kill'd by a Bomb at the Siege of Ostend.

Yesterday one William Pitts, a Man who sold Fish about the Streets, was committed to Newgate for the Murder of his Wife.

ADMIRALTY-OFFICE, August 17, 1745.
WHEN, notwithstanding the repeated Admonitions and Directions of the Lords Commissioners of the Admiralty, for the more speedy holding the Courts Martial to enquire into the Conduct and Behaviour of several Commanders and Officers of his Majesty's Fleet in the late Engagement near Toulon, the same hath not hitherto been effected, which has been in great Measure owing to the Number and Distance of the Witnesses to be examined, previous to such Trials, as well as to the Variety and Extent of the Materials necessary for the several Charges, some of which have been but lately exhibited.

Their Lordships thinking it absolutely necessary to forward the said Trials with all possible Dispatch, in Consideration of the Justice due to the Publick, of the many Inconveniences the Service itself suffers, and of the great Hardships the Parties concerned, such as Evidences and Principals, labour under, until the Matters depending are determined, do hereby declare, That the said Courts Martial are fixed for the 1st of October next; and do direct all Persons concerned, to prepare and hold themselves in Readiness to attend upon that Day, at such Place as shall be appointed for the said Trials. And furthermore, it is their Lordships express Command and Direction, that all Witnesses do pay immediate Obedience to such Summons, as they shall from Time to Time receive, in order to their Examinations, as they will answer the contrary at their Peril.

THE GRAND SPECIFIC SYRUP FOR CHILDREN.

THIS SYRUP, by many Years Experienced, has been remarkably serviceable in all Diseases incident to Children, and is the best Preservative known against Convulsions and Epilepsies, when cutting the Teeth. It expels Wind, prevents foul Belches, and frequent Pukings, helps Digestion, and effectually appeaseth Gripes. Its Virtues are known to be of uncommon Service in the Chin or Convulsive Coughs, likewise in all Convulsive Cases, either of Children or Grown People, from Obstructions, Knots or Ulcers in the Lungs, attended with Coughs, Catarrhs, Hectic Fevers, Night-Sweats, Flushings, and Wheezings of the Flesh; likewise in those Eructations of Infants, call'd the Red-Gum, entirely rooting out and destroying the acrimonious Humour and inward Heat of the Throat, which, for want of timely Relief, kills multitudes of Infants.

It is so innocent, that it may be taken by a Child of a Day old; and is so far from laying the Foundation of a Train of Evils, by stupefying the Senses, and only easing the present Pains, paralling the Stomach, &c. which are well known to attend all Preparations of Opiates, and which, by want of Experience, has ruined multitudes of Infants, by looking in the Vessels those very Mischiefs they were given to expel; and which, in a little Time, break out with a double Force, thereby at once ruining the Constitution of the Infant, if not terminating in Death.

Sold at Dr. BATIMAN'S Warehouse, in Bow-Green-Yard, London, at One Shilling per bottle, containing about an Ounce and a half, staled as in the Margin, with copious Directions and Instructions in every Case incident to Children; together with a brief Account of the Nature and Original Cause, as well as Cure, of the Distempers common to Infants, according to the Opinion of the best Authors, Ancient and Modern.
